2. HEREBY APPLIES FOR AN EXTENSION OF TIME IN WHICH TO

apply water to beneficial use
(complete the well, apply water to beneficial use or both)

3. REASON

The period of time is insufficient and additional time is requested for the following reasons (state reasons in detail if desirable or necessary, submit affidavits, photographs, etc., as evidence in support of statement:

The BMDWCA is administered through a volunteer Board of Directors; the Board is currently updating its Conservation Plan and preparing a long range plan consistent with those used by 40 year planning entities.

The BMDWCA serves an area of approximately 300 platted lots. There are approximately 131 user members (full-time and part-time residents), 18 non-use members, and one commercial member. The full time and part time residents have an expectation of service. The remaining 150 owners of undeveloped property have an implied commitment for service from BMDWCA. There are approximately 50 acres of unsold lots. As the current population reaches retirement age, there is an increasing likelihood that the properties will be used, used more, or developed. The expansion of development to date has been slow.

The BMDWCA has endeavored to protect its water rights through conservation measures; conservation policies and practices include prohibitions on watering grass or washing vehicles, and encouraging members to check for leaky toilet valves and to practice common sense water saving measures.

The State Engineer is hereby requested to extend the time previously granted by extending the limiting date to 11/15/2014.
